Re: Shannon Dragons

To whom it may concern:

This department has been approached by the Shannon Dragons with a view to formalising a link between their group and the Department of Public Health.

We have met with them and had a presentation from Dr Constantino Fiuza Castineira.

This department fully endorses the work of the Shannon Dragons as a good example of a public health initiative with multiple health benefits to breast cancer survivors, who are currently underserved in the Mid-West in the area of such initiatives.

We propose to work with the Shannon Dragons to promote this initiative to both healthcare professionals looking after breast cancer sufferers and to cancer survivors themselves.

Your sincerely,

Dr. Anne Dee, MB. BCh. BAO, MD, MSc, FFPHMI
Specialist in Public Health Medicine
